

REVOLUTIONARY DEMOCRATIC REPUBLIC OF ANTIOCH

LAST PROCLAMATION

THE REVOLUTION HAS BEEN HALF A JOKE. THE OTHER HALF HAS BEEN QUITE SERIOUS.

Revolutions are easy to make, remarkably easy. No government can survive once the people commit themselves to its overthrow. Once the people are made aware of the ease with which an unresponsive government can be replaced, they will not accept for long, a government that is unresponsive.

A government should be composed of servants they should be treated like servants. When they begin to act like masters, it should be the beginning of the end of their road.

You have made yourselves heard. Any future government must listen. Governments always claim that they are trying to further the ends of the people whom they claim to represent. It is usually the case that they are lying to either the people or themselves, or both. A government must be judged on the basis of what it does, not what it says. We have overthrown community government because it was acting to further its own interests while claiming to serve the interests of the people. Before today it may have gotten away with these inconsistencies. It can do so no longer. We have given the people a chance to be heard. Community Government can no longer claim that they do not know what the people want.

The ANTIOCH LIBERATION FRONT announces that it is retiring to the Glen which it declares to be a permanently liberated area. If it again happens that a government of the Antioch Community becomes unresponsive, we shall return.

WE GIVE YOU BACK YOUR PUPPETS. Use them as puppets. If they stop behaving the way that puppets ought to behave, WE SHALL RETURN!
